Veris™  
COLLECTION

A person with long blonde hair, wearing a light brown fedora-style hat and a matching poncho, is sitting in a field of tall grass and wildflowers. The person is seen from the back, looking towards a bright sunset. The sun is low on the horizon, creating a warm, golden glow and lens flare effects. The background is a dark, silhouetted forest.

EXPAND YOUR HORIZON

## Folding Glass Doors

## Possibilities unfold.

Veris folding glass doors are perfect for connecting indoor and outdoor spaces in homes with patios, decks, enclosed porches and more. These operable walls offer a flexible and customizable opening, including an optional swing door, that allows the user to easily enter or exit a room without opening all the panels.

The gateway  
to open-air  
living.

# Sliding Glass Doors

## Expand your living space.

Easily blend indoor and outdoor living spaces with Veris sliding glass door systems. Enjoy expansive views thanks to a flexible design with large panel sizes and multiple configurations. Options for built-in pocket doors deliver completely unobstructed views when fully opened.

Home,  
unbound.

## Durable for the outdoors.

Expansive glass units call for durability and strength without any extra weight. The Veris™ Collection works smarter, not harder, with a sleek design made of corrosion-resistant aluminum which provides durability and strength at approximately one-third the weight of steel.

Create the ultimate open-air living experience with superior performance thanks to our full-system approach. With the Veris Collection, each piece is engineered to work together seamlessly for easy, worry-free operation.

### Optional Neat+™ Coating

All Low-E glass in the Veris™ Collection is available with Neat+ coating. This low-maintenance coating is designed to help keep glass clear and free of watermarks, reducing the need for cleaning.<sup>1</sup>

## Glass Options

### Enhanced Low-E

Blocks 95% of the sun's harmful UV rays, helping to preserve the color and materials of your interior furnishings, draperies and wall treatments.<sup>1</sup>

### Turtle with Low-E

Tinted gray to reduce interior light projection as required near sea turtle nesting areas. Includes Low-E coating for exceptional energy efficiency.

### Low-E

Delivers exceptional energy efficiency, retaining heat in the winter and reflecting it in the summer.

### NEW Satin<sup>2</sup>

Subtle privacy glass with a smooth, seamless finish, delivering understated elegance.

<sup>1</sup>For more information on Satin Enhanced Low-E glass and Neat+ coating, visit [solarinnovations.com](http://solarinnovations.com).

<sup>2</sup>Satin is only available with SDLs. GBGs are not an option.

# Divided Lites

Explore options designed to add style and complement window grid patterns.

## Available Patterns

## Grilles Between Glass (GBGs)

GBGs are sealed between two panes of tempered glass for a smooth easy-to-clean surface.

## Simulated Divided Lites (SDLs) with Grilles Between Glass (GBGs)

SDLs are adhered to the interior and exterior panes of tempered glass and are finished to complement the door system. For a more authentic divided lite look, SDLs are layered over black GBGs.
