

2025 PRODUCT GUIDE

MANIFEST YOUR OUTER HOME

Manifest your outer home.

**When you choose Fiberon,
you're choosing beautiful
outdoor living built for life.**

From early morning sunrises to stargazing on a warm summer night, your outdoor living space is where the world slows down and simple moments become treasured memories. Whether relaxing alone, gathering with family or celebrating with friends, an inspired, multi-functional outdoor space acts as an extension of your home, allowing you to reconnect with nature while experiencing the comfort of the indoors.

We're passionate about helping you create a meaningful outdoor living space – one that combines beautiful details with sustainable design.

Why choose Fiberon?

HELPFUL, CREDIBLE EXPERTS

Whether it's finding the perfect board color, designing a deck layout or providing tips on selecting a contractor, Fiberon is here to help. We offer straightforward information and honest advice so you can make the best decisions for your unique space.

LOCAL ROOTS, GLOBAL REACH

Fiberon® products are made in our home state of North Carolina and Idaho. From these two locations, we distribute throughout North America and to more than 40 countries in Europe, Asia, Africa, Oceania, and Central and South America.

LONGER LIFESPAN, LOWER COST OF OWNERSHIP

From replacing splintered boards to reapplying stain or paint, the average pressure-treated deck needs a lot of maintenance. Those supplies can add up to hundreds of dollars each year, not to mention the time spent refinishing and repairing old boards. A Fiberon composite deck? Simply clean with soap and water or a mild cleaner for a high-end look that lasts.

SAFE FOR THE ENVIRONMENT

Our composites are manufactured using sustainable processes. And, unlike wood, they prevent further deforestation. Learn more at fiberonbalance.com.

Deepen your connection with nature.

When you're choosing products for your outdoor living space, we want you to know you're making a choice that is good for your family, your home and the environment.

The beauty of choosing Fiberon.

Your outdoor living space should provide the comforts of the indoors with the rejuvenating benefits of nature, giving you a place to unwind and make memories with family.

Fiberon® products are nearly maintenance free and retain their beauty for years to come, meaning you can enjoy the quiet moments without spending precious time on maintenance and upkeep.

TREES ARE BEAUTIFUL

About half of what's in our decking comes from recycled wood – sawdust and leftover material that would otherwise be discarded. That's the beautiful thing: even though they look like wood, we aren't cutting down trees to make our deck boards.

Fiberon uses 100% recycled wood, preventing nearly one million trees – or 20,000 acres of healthy forest – from being cut down each year. Yellowstone National Park encompasses approximately 2.22 million acres of forest.

PLASTIC LASTS A LIFETIME (OR TEN)

The other half of the core of our deck boards comes from recycled plastic, including grocery bags and recycled packaging material. A typical American family uses around 1,500 plastic bags each year, and each bag gets used for about 12 minutes. Once it's discarded, you'll probably find it in a landfill, or in the ocean, where it could last up to 1,000 years.

Our in-house recycling facility recycles around 100 million pounds of plastic each year, equivalent to the weight of more than 66,000 bison.

RESOURCEFUL TO THE LAST DROP

We reuse almost all of the water required for manufacturing our products. We keep a water reservoir about the size of the standard swimming pool at each plant that we can use and reuse – and reuse again.

Our closed-loop water system saves nearly 3.5 billion gallons of water annually. Yellowstone Falls drops that much water in 1.2 days!

OUR WARRANTIES ARE SECOND TO NONE

Fiberon products are protected by industry-leading warranties covering stain, fade and performance for both residential and commercial applications. The most common pine tree in Yellowstone can live up to 100 years. The average wood deck lasts only 10-15 years.

DECKING

Make every weekend count.

At Fiberon we believe that decks are meant to be enjoyed, not maintained. Our composite PE and PVC decking won't warp, rot or splinter, so the look you love today will be there tomorrow. Wood decking simply can't compare.

PROMENADE | PVC DECKING

The art of outdoor living.

Evoke the feeling of luxurious living with Promenade PVC decking. Promenade offers the aesthetic of high-end handcrafted wood decking, with the benefits of premium PVC.

Promenade | PVC Decking

- Boards feature four-sided capping, streaking on the unembossed underside and a next-generation surface coating for superior weather resistance and durability.
- Synthetic solid core construction provides protection from cracks, splinters and mold.
- Promenade deck boards feature enhanced slip resistance¹, making them an ideal choice for waterside applications.
- The lightweight, easy-to-handle boards float, making them easy to install in or under water.
- Boards won't warp or swell when submerged in water, even after being cut.
- Tested for use around fresh water, salt water and chlorinated water environments, and suitable for use in installations that may be temporarily submerged in water, like dock and pool stairs.
- When tested, Fiberon® PVC deck boards displayed high performance in resisting mold, water absorption and discoloration.
- Approved for use in all Wildland Urban Interface (WUI) zones.

Bungalow

Beach House

WEEKENDER COLLECTION

Cabin

Cottage

Make a statement.

Picture your perfect outdoor living space. Is it a serene retreat, designed for relaxing at the end of a long day? Or is it sleek and stylish, ideal for elegant outdoor dinner parties?

The board color you select will influence the look and feel of your outdoor space, from subtle, subdued shades that blend with your surroundings to bold, modern hues that provide showstopping contrast. Each Fiberon® decking collection comes in a variety of nature-inspired, on-trend colors featuring realistic grain patterns.

For a casual, laidback look, choose cool-toned browns like Bungalow, Sandstone and Clay. If you're looking for something more modern, consider mid-tone finishes like Natural Reef, Latte and Espresso. Classic finishes such as Sandy Pier, Weathered Cliff and Moonlit Cove provide a traditional aesthetic.

Mix and match colors within your selected decking collection to create a unique, two-toned look with depth and personality.

GOLDEN BROWNS

Warm and natural, these shades complement any architecture.

GRAYS

The perfect choice for coastal homes, gray evokes thoughts of rocky shorelines and weathered wood.

CLASSIC BROWNS

Choose a classic shade of brown to add depth and drama to your space.

CLADDING

The beauty of wood meets advanced composite technology.

Bring your vision to life with Fiberon® Wildwood™ composite cladding. Available in two nature-inspired color collections that feature realistic embossing patterns and a wide variety of board lengths, Wildwood composite cladding provides you with endless opportunities to explore your creativity.

WILDWOOD™ COMPOSITE CLADDING

Create a variety of looks, from subtle and rustic to bold and modern.

- Offers a long-lasting, low-maintenance, more sustainable alternative to traditional wood cladding.
- Available in a variety of board lengths and widths for more design solutions. Longer lengths result in fewer seams and the open-joint profile utilizes a concealed face fastener, creating a cleaner aesthetic.
- Mix and match board lengths and colors, or use horizontal and vertical configurations to create a unique, custom look for each project.
- Wildwood composite cladding is priced competitively to wood and is a cost savings over engineered cladding products.
- The durable composite core ensures exceptional resistance to rotting, cracking, insects and decay.

EDEN COLLECTION

Inspired by lush, tropical forests and features an array of exotic hues.

SAHARA COLLECTION

Draws inspiration from arid, sandy landscapes and includes rich desert tones.

Note: Actual colors may vary from photographs. See your Fiberon seller or visit fiberoncladding.com for details on limited warranties and exclusions.

RAILING

Change
your outlook.

Discover beautiful, durable railing options to complete your outdoor living space. Fiberon® railing is available in a variety of styles and colors that can be paired with any of our decking options to create a custom look for your home.

CitySide Contemporary aluminum railing in Matte Black and Concordia PE composite decking, Astir Collection in Prairie Wheat.

COUNTRYSIDE | PVC RAILING

Strong is stylish.

From its understated satin finish to its clever sub-rail reinforcement, CountrySide railing is the ideal balance of beauty and strength. The sculpted top rail imparts a touch of sophistication. Three color choices and two baluster infill options create multiple designs. The smart composite construction and protective bonded cap layer were engineered for performance and longevity.

- Choose your railing color, baluster material, and railing height to create a look that showcases your personal style.
- Color-matched composite balusters or black aluminum balusters available.
- Refined satin finish adds elegance.
- Composite construction ensures lasting durability.
- Made of low-maintenance PVC composite.
- Reinforced top rail provides a strong, sturdy feel.
- Hidden hardware gives a clean look.
- Compatible with ADA handrail system, available via special order.

CITYSIDE | ALUMINUM RAILING

Expand the possibilities.

Explore the clean, minimalist design of CitySide railing, now with even more options to add beauty and functionality to your home. Whether you want to create a serene backyard retreat with an unobstructed view, or an elegant outdoor space to host dinner parties, choose customizable CitySide railing to create the aesthetic that best fits your needs.

- Choose from two distinct top rail profiles – Contemporary and Traditional – that can be paired with sleek black aluminum balusters.
- Contemporary, flat top rail profile offers clean, simple aesthetic and adds a sleek, modern look to any outdoor living space.
- Pair a glass panel (glass not sold by Fiberon) with Contemporary top rail sections for a showstopping look.
- Optional over-the-post drink rail kit can be used with both Traditional and Contemporary top rail profiles, giving you and your guests a place to set down your beverages.
- High-performance, low-maintenance material reduces upkeep time and expense.
- Pre-punched bottom rail enables faster baluster installation.
- Premium powder-coated aluminum resists rust.
- No exposed welds or cuts help prevent injuries.
- End, line and corner posts feature integral bracketing, providing a clean appearance and reducing installation time.

DECK FASTENERS

Install any deck with ease.

Engineered for optimal performance and universal adaptability to any Fiberon® deck, these fasteners are designed to enhance the overall finish of the deck while offering flexibility to suit a varied range of uses and applications.

HIDDEN GROOVED FASTENER SYSTEMS

This popular choice offers versatile solutions for grooved deck boards to create a smooth, flawless surface.

FACE-FASTENING SYSTEMS

Our most budget-friendly option — designed for efficiency by combining the simplicity of Fiberon square-edge boards with standard or color-matched face-fastening applications.

LEARN MORE AT
FIBERONDECKING.COM

Hidden Grooved Fastener Systems

FIBERON® EDGE®, EDGEX® AND EDGEXMETAL® CLIPS

- Install decking in half the time with award-winning Fiberon EDGE and EDGEX clips.
- Fiberon EDGE and EDGEX clips are designed for use on all grooved decking, including PE and PVC.
- EDGE clips are for 90-degree deck patterns.
- EDGEX clips are for any deck pattern.
- Pre-assembled, one-pass fasteners do not require partial installation and are easier to install with the included NEVER-MISS® Guide.
- Clip creates 3/16 in. spacing.
- Gusset holds the board down, is up to 88% stronger than competitor’s clips in lateral movement tests, and up to 50% stronger than competitor’s clips in uplift holding power tests.¹
- Fiberon EDGEXMETAL clips are available with a #7 x 2 in. 410 stainless steel screw with drill point, #2 tip for 14-18 gauge metal framing.

FIBERON® STARTER CLIP

- Achieve a fastener-free deck surface on any grooved-edge board.
- Versatile clip is easy to install and can also be used as an L-Bracket.

FIBERON® PHANTOM® UNIVERSAL HIDDEN FASTENER

- For use with PE decking only.
- Easy to install, helps minimize lateral board movement and works with most leading grooved composite decking brands.
- Black HDPE fastener practically disappears between deck boards.
- Carbon steel-coated screw helps prevent rust and corrosion.
- Pre-inserted screw enables easy one-touch installation.
- Self-gapping design ensures consistent 3/16 in. spacing between every board.

Face-Fastening Systems

HIDDEN PLUG SYSTEMS

Starborn® PRO PLUG® SYSTEM Deck

- Package includes PVC / Composite Tool, screws and plugs.
- Plugs are made from Fiberon® deck material for a perfect match.
- PVC / Composite Tool features Auto-Stop™ clutch mechanism.

Starborn PRO PLUG SYSTEM Fascia

Fascia Plug Tool Set and Fascia Plug and Screw Kit

- Fascia Plug Tool Set features Auto-Stop™ bit for setting ideal screw depth and creates perfectly sized holes for boards to expand and contract freely.
- Plugs are made from composite deck fascia material for a perfect match.
- Can be used with composite risers.
- Fascia Plug Tool Set sold separately.
- Not available for PVC Fascia systems.

COLOR-MATCHED SCREWS

Cap-Tor® xd Color-Matched Screws

- Cap-Tor xd screws are color-matched to Fiberon decking.
- Available for PE and PVC deck boards.
- Epoxy-coated carbon steel (T-20 Star bit included).
- 305 Grade Stainless Steel version also available (T-20 Star bit included).
- Use with Smart-Bit® Depth Setter for perfect depth setting every time (Part #: SCREW CTBRD BIT sold separately).

Starborn Fascia System

- Pre-drilling and countersinking Fascia Tool with patented Smart-Bit technology (Part #: SCREW CTFS BIT sold separately).
- Designed to handle expansion and contraction that can occur with deck fascia boards.
- Screws are color-matched to Fiberon fascia.
- Epoxy-coated carbon steel screws (T-20 Star bit included).
- Also for use on riser boards.

CAMO® Tools

Install decking up to five times faster¹.

CAMO. DRIVE™

Install grooved- and square-edge decking with clip, face and edge fasteners up to five times faster with the cordless stand-up deck fastening tool that attaches to your drill.

- Installs Fiberon EDGE and Fiberon EDGEX Clips.
- Stand-up tool allows for a faster installation that’s easier on your body than other methods.
- Tool is easy to use — with an adjustable handle and a quick-change button for swapping out included fastening guides, it's simple to load the bit and attach to your drill.
- Also fastens CAMO collated EDGE Deck Screws and CAMO Collated Face Screws (available through CAMO).
- Replacement T-15 Drive™ bits are available.

CAMO. CLIPDRIVE™

Install grooved-edge decking exclusively with Fiberon® EDGE®, EDGEX® or EDGEXMETAL® clip fasteners from a standing position with this drill attachment.

- Ergonomic tool features a height-adjustable handle, making it the perfect fit for any installer.
- Weighted nose easily targets the screw head, speeding up your jobs.
- Non-marring nose tip prevents scuffs and rings.
- Contractor-grade tool is heavy-duty yet lightweight and quick to assemble.
- Replacement T-15 Drive™ bits are available.

CAMO. LEVER®

Straightens and locks in deck boards.

- Speeds up the installation of grooved-edge deck boards — locks in rows of boards and clips before fastening.
- Strong enough to straighten warped boards.
- Adjusts to wood and metal joists 1-½ – 3 in. wide for jobsite versatility.
- Multi-directional lever locks in one turn.
- Use two, three or four LEVERS along the length of the deck for the best clip installation experience with consistent board spacing.

CAMO. DRIVE™, CLIPDRIVE™ & LEVER®

One-year warranty through CAMO.

- Sold through Fiberon distribution partners.

Bring your deck design to life.

Fiberon® Discovery Deck Design Tools take the guesswork out of planning your outdoor living space project and provide you with the resources you need to navigate your deck design journey – from start to finish.

DECK DESIGNER

Design a deck from scratch or choose from our pre-set deck shapes. Then, customize it to fit your home's style.

INSPIRATION

Browse our gallery of beautiful Fiberon decks to find inspiration.

DECK VISUALIZER

Our augmented reality app allows you to place decking within your space to quickly discover Fiberon possibilities on any surface. Take photos of different angles of your deck area and our tool will stitch the images together, allowing you to rotate and see multiple views of your deck.

IT'S TIME TO BUILD — WE CAN HELP

Our Find a Builder tool lists local, qualified Fiberon deck builders who can answer questions, provide project advice and quote the job. Or, use the Where to Buy feature to find local Fiberon dealers as well as lumberyards and home centers that carry our products.

DISCOVERY AR PRODUCT VISUALIZER APP

Available through the Apple App Store and Google Play Store.

¹Available for Special Order in 12 ft.
²Available for Special Order in 12 ft. and 16 ft.
³When installing Paramount decking, secure stair treads over and in contact with a treated pine 2x6, installed flat, not on edge, as under support and secured with Simpson A23 approved connectors and 10d x 1.5 in. hot galvanized nails.
Note: See your Fiberon seller or visit fiberondecking.com for details on limited warranties and exclusions. Product Information Sheet available on fiberondecking.com for exact measurements and tolerances for all decking, fascia and riser boards.

Fiberon Concordia has been tested to be compliant with the 2012/2015 IRC, Section R104.11 and Section R703, and the 2012/2015 IBC Section 1403.2, Section 104.11, Section 1404.1, and Section 1405.17. It has also met the requirements of ASTM D1929 and ASTM D635, making it compliant with fire ignition and rate of burning standards, and NFPA 268, certifying it has a low propensity to ignite in the presence of a radiant heat source. It has also met the requirements of Miami-Dade County Florida High Wind Testing protocols TAS 201/202/203, certifying it is tested to withstand high velocity hurricane zones level winds through cyclical, uniform loading, and large & small missile testing when installed in accordance with Fiber Composites, LLC written installation instructions.
